We are excited to announce the addition of a new family practice provider to our clinical staff at the Neponset Health Center.

Sonia Lipson, NP-C, MSN, ANCC, joined the Family Practice Department at Neponset Health Center.

Sonia is Board Certified in Family Practice. She completed her Masters Degree in Nursing with specialty in Adult Primary Care and a Graduate Certificate in Family Practice at Simmons College Graduate School of Health Professions in Boston, MA.

Prior to joining the Neponset Health Center, Ms. Lipson worked at the Greater Lawrence Family Health Center and prior to that, at the Whittier Street Neighborhood Health Center (WSNHC) delivering primary and urgent care to adult, pediatric and OB patients. During her tenure at the WSNHC, she developed one of the very first interdisciplinary HIV case management teams serving inner city Hispanic clients, a diabetes education program and a domestic violence response system for patients of the health center. She has conducted HIV research and led clinical trials as part of a Boston wide team of clinical researchers.

Ms. Lipson has co-founded Nurses Network of National Health. She is a tireless advocate for immigrant and disenfranchised population accessing health care and needed social services. Her compassion and bedside manners brought her outside the US and to a Mexican Hospital where she treated Guatemalan children and adult refugees. She speaks fluently Spanish and French.

Sonia Lipson has an office at the Family Practice Department. She accepts new patients and can be reached at (617) 282-3200.

Neponset Health Center is a primary and preventative care provider. Neponset Health Center is owned and operated by Harbor Health Services, Inc. which manages the first community health center founded in the United States.
