Harbor Health Services, Inc. Celebrates the One Year Anniversary of the Health Care Law-**Moving Forward, Protecting Women's Care-**

Dorchester, MA—Harbor Health Services, Inc. (HHSI) will join a number of organizations throughout the Nation in celebrating the **One Year Anniversary of the Patient Protection and Affordable Care Act**. HHSI's focus this year will be on the benefits of the Health Care Reform Law to Women.

March 23rd marks the one year anniversary of the Affordable Care Act being signed into law. This law empowers every American – seniors, small businesses, women, young adults – to have more freedom and more control over their health care. Among its many benefits, the law makes important advances for women's health. The new law provides millions of women and their families across the country with access to high quality affordable health care including coverage for young adults to stay on their parent's health plan until age 26, provides no-cost preventive services, eliminates lifetime caps on health coverage, and prohibits insurers from denying coverage to children with pre-existing conditions.

During the week of March 23, 2011, HHSI will participate in online events such as:

- a **"Blog-a-thon"** co-hosted by MomsRising and the National Women's Law Center
- "Women and The New Health Care Law On-line Trivia"**
- and **"Real Women-Real Stories-How the Health Care Reform Law Changed My Life"**.

To participate join us on Facebook at <http://facebook.com/HarborHealthServicesinc>

For more information and to view a collection of testimonials visit the HHSI web site at www.hhsi.us Testimonials will be uploaded on our web site on Thursday, March 24, 2011 to coincide with the National efforts for Women's Day.
