Health Resources and Services Administration awards \$350,000 to Harbor Health Services, Inc. to expand integrated oral health services and improve oral health outcomes for CHC patients and residents in the communities it serves.

Boston, MA-This funding will enable Harbor Health's Community Health Center division including its dental clinics to expand oral health care services and to increase the number of patients served in Boston, the South Shore, Plymouth County and Cape Cod. Expansion efforts will include adding evening and weekend hours as well as adding a dental chair at Harbor's dental clinic in Hyannis, which will allow for providing services to physically handicapped patients. Funding will significantly increase the agency's capacity to provide dental services to pediatric patients, young adults and the elderly with limited access to dental insurance.

"Oral health is an important part of our overall physical health and well-being," said Health and Human Services, Secretary Burwell. "The funding we are awarding will reduce barriers to quality dental care for hundreds of thousands of Americans by bringing new oral health providers to health centers across the country."

Oral health problems can be a sign of illness elsewhere in the body. Additionally, lack of access to preventive and routine dental care for underserved populations can result in dental conditions requiring more costly emergency dental treatment.

About Harbor Health Services, Inc.

Harbor Health Service, Inc. (HHSI) is the parent organization for Harbor Community Health Center, Hyannis, and Ellen Jones Community Dental Center (EJCDC), Harwich. Its Boston programs

include Neponset Health Center, Geiger Gibson Community Health Center, the Elder Service Plan, and Dorchester South-Women, Infant and Children Nutrition Program. These clinics and centers provide high-quality medical, dental and social services to patients in Boston, the South Shore, Plymouth and Barnstable Counties. In addition to serving low-income communities, new immigrants and marginally-insured patients, the centers assist members of the business community, including those who are self-employed or under-insured, and their employees to find health care options and answers.
