Harbor Health
Services, Inc.

The Advancement of Pharmaceutical Care through Education

Harbor Health Services, Inc. (HHSI) acts as the primary practice site for the Pharmacy Practice Residency (PGY-1) with emphasis in ambulatory care.

All of the pharmacists practicing within the HHSI system have faculty appointments at Northeastern University. Faculty are responsible for providing didactic instruction in their specialty to pharmacy students in years one through five. In addition to didactic instruction, faculty members precept sixth year students completing their Advanced Pharmacy Practice Experiences.

Other opportunities in education are offered by pharmacists to HHSI staff and community members in order to illustrate the benefits of integrated services and collaborative medication therapy management.

Our Vision

The members of the Clinical Pharmacy Services (CPS) work in collaboration with community health center providers and staff to provide comprehensive and continuous care.

Our Mission

CPS at Harbor Health Services, Inc. provides comprehensive patient counseling and educational services to ensure safe and effective use of nonprescription and prescription medications. Our devoted, knowledgeable, and empathetic team, which consists of clinical pharmacists, residents, and students, are dedicated to improving the health and well-being of adult and pediatric patients.

Our Goal

To provide comprehensive, ongoing education, taking into account each patient's individual state of health, readiness to learn, socioeconomic, and cultural background. We encourage and welcome the patients participation in the self-management and care of their chronic conditions.

Objectives

- Use a multidisciplinary approach to the delivery of care
- Actively participate in health care center collaborative groups
- Provide pharmacy consult services for chronic disease states
- Provide educational services for patients, caregivers, and center staff
- Provide relevant thoughtful, and timely drug information consults
- Provide a high quality, well coordinated advanced practice site for PharmD candidates for Northeastern University
- Collect and publish research to support pharmacy services as a part of collaborative
